

- 1 | Disponibles en vidrio transparente, topacio, azul cobalto y verde
- 2 | Cumplen las especificaciones de la Farmacopea Europea y de Estados Unidos
- 3 | Sistema de control de calidad del producto garantizado con análisis físicos y químicos: verificación de las características dimensionales, resistencia al choque térmico, resistencia hidrolítica y resistencia a la presión
- 4 | Fabricados en vidrio sodocálcico tipo III
- 5 | Rosca DIN 18 (consulte los tapones disponibles para frascos ENDO-glassware)

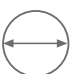

- 1 | Available in transparent, amber glass, cobalt blue and green
- 2 | They meet the specifications of the European and US Pharmacopeia
- 3 | Guaranteed quality control system of the product with physical and chemical tests: verification of the dimensions and the thermal shock, hydrolytic and pressure resistances.
- 4 | Made of soda-lime glass type III
- 5 | Thread DIN 18 (see available stoppers for ENDOglassware bottles)

Vidrio topacio / Amber glass

Tapón seguridad cuenta gotas interno / Safety stopper with inner dropper

Tapón de seguridad para niños con precinto y cuenta gotas interno, fabricado en polietileno y disponible en dos colores diferentes: blanco y amarillo.

Kid safety stopper with with seal and inner dropper, made of polyethylene and available in different colours: white and yellow.

Referencia Code	Descripción Description
12011007	Tapón seguridad cuenta gotas interno blanco Safety stopper with inner dropper, white
12011008	Tapón seguridad cuenta gotas interno amarillo Safety stopper with inner dropper, yellow

Tapón cuentagotas con tubo de vidrio / Dropper stopper with glass tube

Tapón de polietileno con precinto, tetina (libre de látex) y tubo de vidrio.

Polyethylene stopper with seal, teat (latex free) and glass tube.
